MANAGEMENT DISCUSSION AND ANALYSIS

Dividend

Due to carry forward losses, the Directors have not recommended any dividend for the year.

Industry Conditions and Review of Operations

The Indian textile industry witnessed reasonable improvement during the course of the year. During the year under review your company was able to maintain its performance due to stable cotton prices, remunerative yarn price, upward trend in export of cotton yarn coupled with depreciation of Indian Rupee and through dedicated efforts aimed at improving operational efficiency, focus on optimal product mix and effective cost saving practices.

Power situation was cause of concern for most part of the financial year. The Company has taken up the modernization of its manufacturing facilities and planning an outlay of around ₹ 50 Crores towards the above in the next 3 to 4 years.

Company outlook

During the current year, in the first quarter the demand for the yarn is subdued and yarn prices could not be increased corresponding to the increase in cotton prices.

Opportunities, Risks and Concerns

The cotton price is subject to climatic conditions and market volatility. The probable impact of climatic conditions in current year is expected to have a bearing on the cotton prices.

Exports may partly get affected since European Markets are yet to improve. Power shortage and Labour shortage are major concerns, which could have impact on operations of the Company. Higher inflation and increase in interest rates would have adverse impact on profit margins of the company.

Subsidiary Companies and Consolidated Financial Statements of Subsidiaries

The Company has two subsidiaries namely M/s Sara Elgi Arteriors Limited - a wholly owned subsidiary and M/s Elgi Building Products Limited - step down subsidiary. The statement pursuant to Section 212 of the Companies Act 1956, containing details of subsidiaries of the Company forms part of this Annual report.
